

# LEADING INNOVATION PROGRAM

## Learn how to lead and enable a culture of innovation in your organization.

### YOU WILL LEARN:

1. How to build innovation into strategic planning
2. How to develop a systems-driven innovation mindset
3. How to use executive tools that will make you more effective at leading innovation
4. How to make innovation happen faster and with less risk

An organization built on a culture of innovation is purposeful in its focus. In this one-day program, you will gain insight into your organization, and your personal leadership approach to drive innovation success, including:

#### ▶ FUTURE PROOFING

What you can do to develop an environment in which existing employees contribute to a culture of innovation.

#### ▶ INNOVATION CAPABILITIES

What it takes to “win” with innovation, including the investments in internal capabilities that will provide the most impactful ROI.

#### ▶ BUILDING & SUSTAINING MOMENTUM

Your personal and organization’s readiness to innovate, and whether it has the momentum to build and sustain a culture of innovation.
